

HSBC Life Wealth Accelerate

Rev up your returns

A flexible investment-linked plan that gives yourself and your wealth the opportunity to flourish and grow as you secure your ideal retirement at the same time.

HSBC Life Wealth Accelerate rewards you with multiple bonuses as well as the flexibility to receive your dividends in cash or reinvest them to expand your wealth further.

An extra boost to achieve higher goals

Diverse selection of funds with option for dividend payout

Invest confidently in a wide selection of **more than 80 unique investment-linked funds** from varying industries and geographical sectors. This includes dividend paying investment-linked sub-funds, which gives you the **option to receive your dividends in cash, or reinvest them to grow your wealth.**

Rewards along your investment journey through multiple bonuses

- **Start-up bonus¹**

Receive a start-up bonus of up to 30% of annual premium in policy year 1. With up to 200% of annual premium across the Initial Contribution Period (ICP) of three to five policy years for Minimum Investment Period (MIP) of 30 years.

- **Power-up bonus²**

Receive a power-up bonus of **up to 1.3% p.a. of account value** from policy year 15 until the end of the MIP.

- **Loyalty bonus³**

Receive a loyalty bonus of **up to 1.1% p.a. of account value** throughout the policy term starting after the end of MIP.

A flexible plan that cater to your needs

- Select from 4 MIP options: **15, 20, 25 or 30 years**
- Choose to invest in **SGD or USD**
- Available from a minimum monthly premium of S\$300
- Accelerate your investment by adding **recurring single premium and/or top-ups⁴** to your investment at any time.
- Access your account value through **partial withdrawal** at no cost – up to the first seven requests⁵ after ICP till end of MIP and after MIP.
- Take a **premium holiday⁶** whenever you need one – up to total aggregate of 84 months during MIP, and unlimited after MIP.

Protection for you and your loved ones

- Be covered **against death⁷ and terminal illness.**
- The **life replacement option⁸** allows you to replace the life assured with your spouse or child, as a way of wealth transfer to your loved one.

Hassle-free experience

- No medical check-up is required when you sign up for this plan.

Why it pays to start investing early

- Manage your risks over time**
Depending on your preferred minimum investment period, long-term investments may provide more time for recovery in case anything goes wrong.
- Take advantage of the compounding effect**
When you re-invest your returns, your return-on-investment increases exponentially.
- Cultivate a healthy financial discipline**
Setting aside an investment budget helps you to monitor your spending habits by cutting out unnecessary expenses.
- Empowers you to live a better life**
Growing your investments over time offers you more opportunities to enjoy the finer things in life with the ones you love, and helps you to prepare for your retirement.

These are opinions expressed by HSBC Life (Singapore) Pte. Ltd. and experience(s) may vary from individual to individual.

Illustration 1: Move closer to your perfect retirement lifestyle

Denise, age 30, is excited about her dream retirement lifestyle and wants to start planning early to build her retirement fund.

She purchases **HSBC Life Wealth Accelerate** with 30-year Minimum Investment Period (MIP) at an annual premium of S\$12,000 and she intends to pay the premium until her retirement age of 65. She selects a dividend paying ILP sub-fund that provides a potential dividend payout of 3.5% for her investment portfolio, and chooses to reinvest.

At age 65, Denise decides to stop paying premiums by going on an **unlimited premium holiday**⁶. She chooses to receive annual dividend payout to enjoy her retirement without any worries.

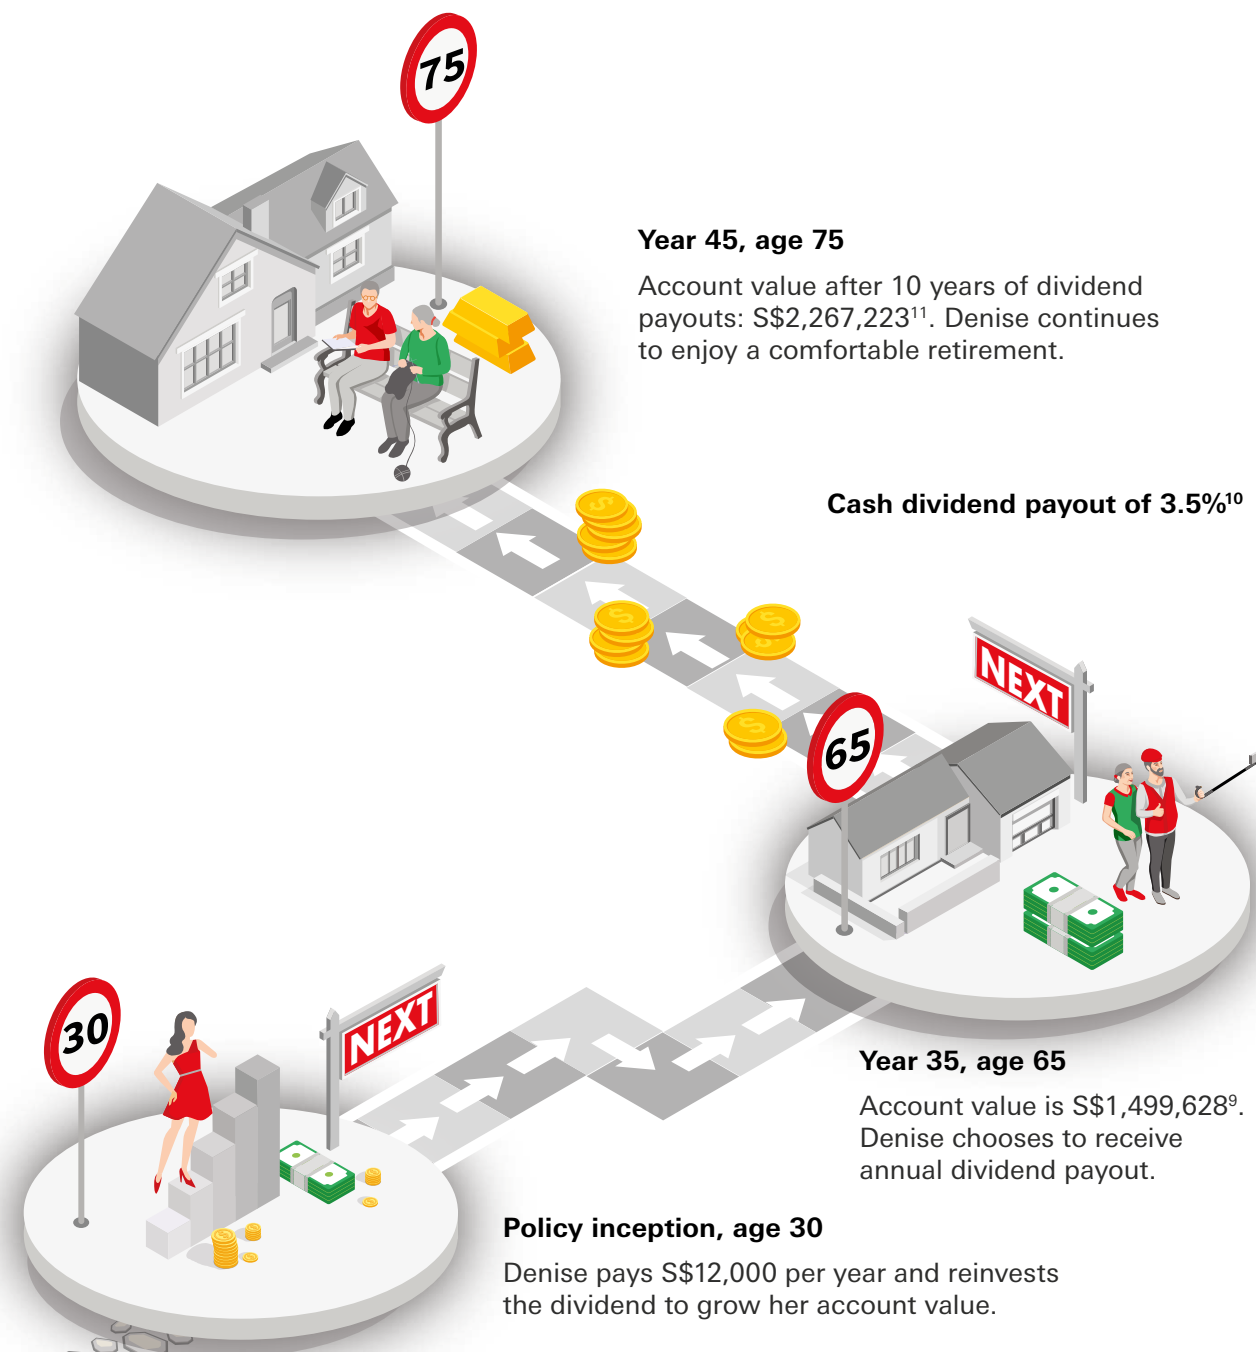

Illustration 2: Secure your legacy against uncertainties

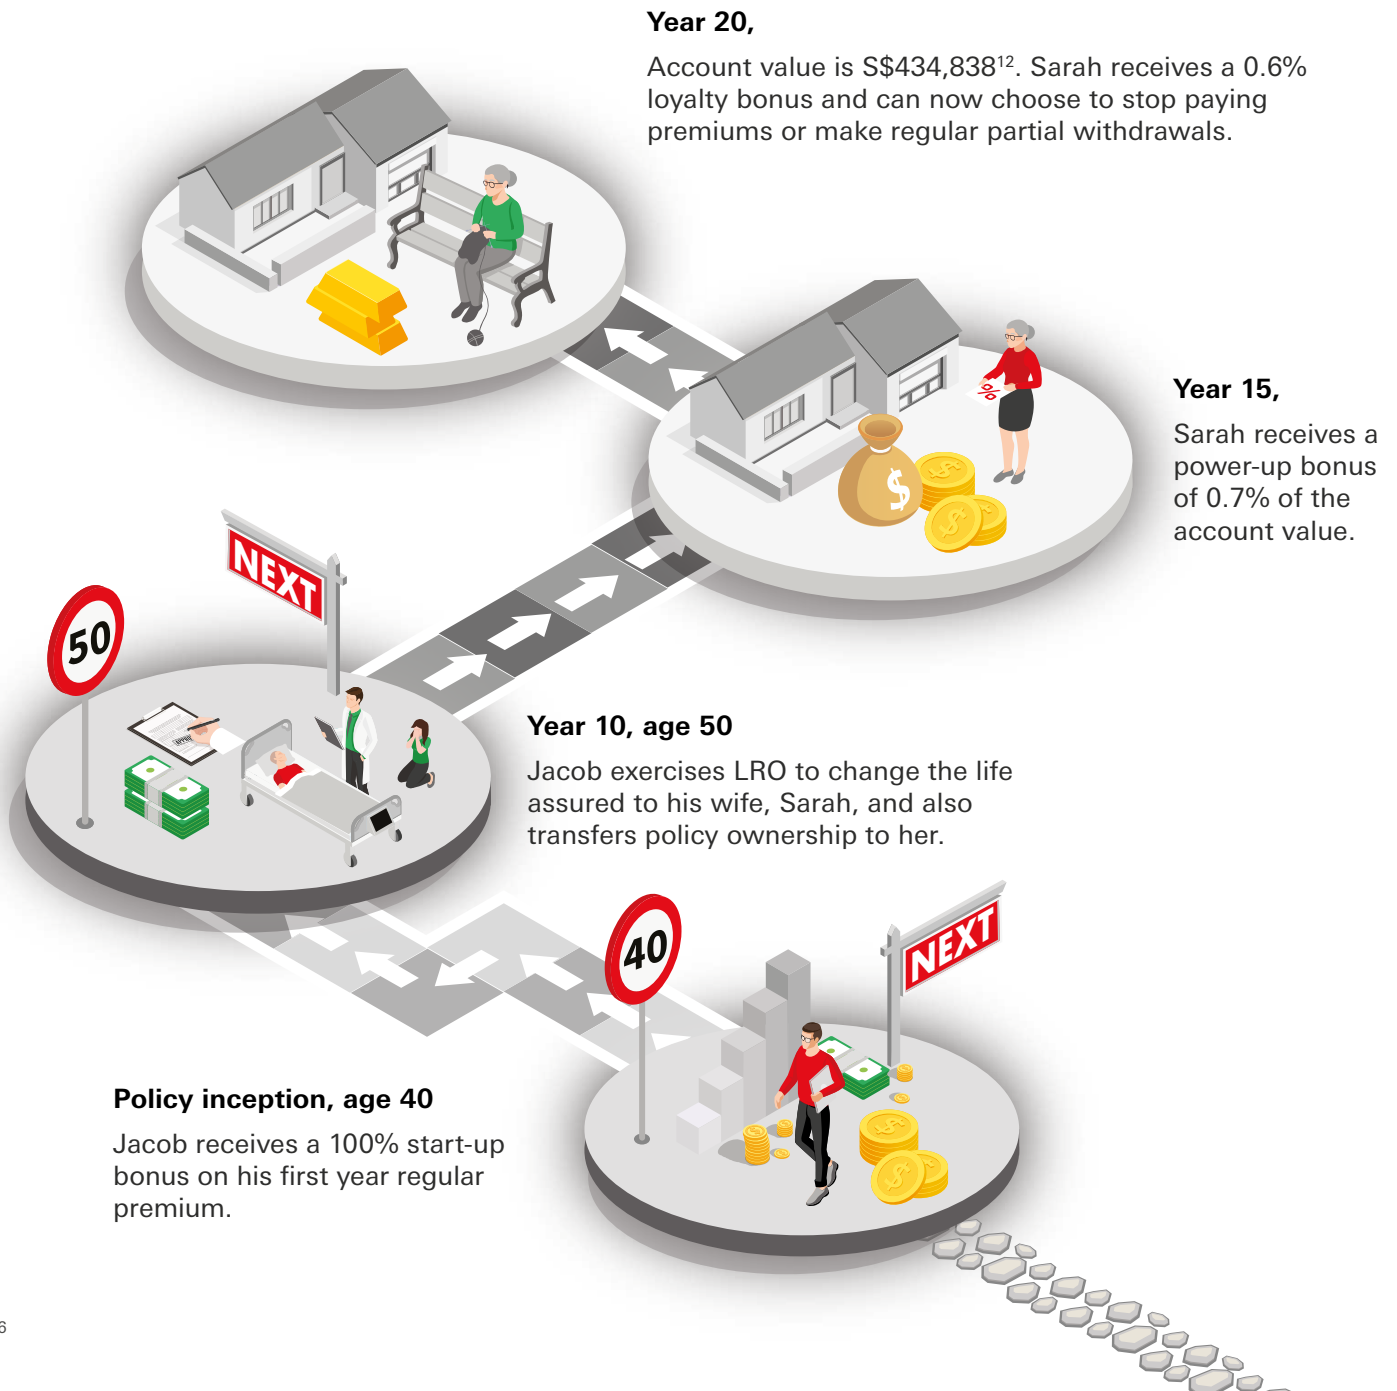

Jacob, age 40, purchases **HSBC Life Wealth Accelerate** with 20-year Minimum Investment Period (MIP) at a monthly premium of S\$1,000 as he is planning to accumulate a retirement sum of S\$430,000 in 20 years.

At age 50, Jacob is diagnosed with terminal stage colon cancer. He exercises the **Life Replacement Option (LRO)**⁸ to have his wife, Sarah, to replace him as the life assured. At the same time, he transfers this policy to Sarah by assigning her as assignee, so she can have the rights of this policy.

When Jacob passes away at age 50, the policy **does not terminate due to a death claim**. Instead, Sarah can continue accumulating towards the target of S\$430,000.

At the end of the 20-year MIP, Sarah has **the flexibility to stop paying premiums or make regular partial withdrawals** from the policy, whilst the policy value continues to grow.

Fund management charge	As per selected fund

Footnotes

¹ Start-up bonus = applicable start-up bonus rate x regular premium for the 1st policy year applicable start-up bonus rates:

MIP				
	15 years	20 years	25 years	30 years
Year 1	15%	20%	25%	30%
Year 2	25%	40%	40%	40%
Year 3	25%	40%	40%	40%
Year 4			40%	40%
Year 5				50%
Total	65%	100%	145%	200%

² Power-up bonus = (applicable power-up bonus rate / 12) x the prevailing total account value

Applicable power-up bonus rates are based on selected MIP:

MIP				
Premium tier	15 years	20 years	25 years	30 years
Less than S\$9,600 / US\$6,720	N.A	0.65%	1.00%	1.25%
S\$9,600 / US\$6,720 and more		0.70%	1.05%	1.30%

Upon partial withdrawal, premium reduction and premium holiday, no power-up bonus will be given to the policy in the next subsequent twelve (12) policy months.

³ Loyalty bonus = (applicable loyalty bonus rate / 12) x the prevailing total account value

Applicable loyalty bonus rates are based on selected MIP:

MIP			
15 years	20 years	25 years	30 years
0.20%	0.60%	0.90%	1.10%

Upon partial withdrawal, no loyalty bonus will be given to the policy in the next subsequent twelve (12) policy months.

⁴ Recurring single premiums and/or top-ups will be 100% allocated to the AUA, at no premium charge. All monies in the AUA, including RSPs and top-ups, will be subject to IMF and PWC, when applicable.

⁵ Each partial withdrawal made under the free partial withdrawal benefit is subject to the following conditions.

MIP	15 years	20 years	25 years	30 years
Maximum number of free partial withdrawal	2	2	5	7

Each free partial withdrawal is capped at two (2) times the annualised regular premium applicable at point of exercise. This means if you have reduced your annualised regular premium, each of your free partial withdrawal amount is capped at two (2) times of the reduced annual regular premium. Upon each exercise of this benefit, no power-up bonus or loyalty bonus will be given to the policy in the next subsequent twelve (12) policy months.

⁶ All applicable fees and charges will still be deducted during premium holiday.

⁷ For death occurring before the policy anniversary nearest to the life assured's 66th birthday, we pay both:

i) 101% of (Total account value)

ii) 15% of (Total account value - Top-ups - RSPs), capped at S\$500,000 / US\$350,000 less outstanding fees and charges

For death occurring on and after the policy anniversary nearest to the life assured's 66th birthday, we pay:

i) 101% of (Total account value)

less any outstanding fees and charges

⁸ Life replacement option allows the policyholder to replace the life assured with his/her spouse or child below 18 years old.

⁹ The account value at policy year 35 is illustrated under the assumption that the selected funds perform at 8% investment return, assuming no withdrawals, reduction in premium, or premium holidays have been made.

At 4% illustrated investment return, the account value is S\$667,047 at policy year 35, assuming no withdrawals, reduction in premium, or premium holidays have been made.

¹⁰ The table below illustrates a cash dividend payout of 3.5%.

Year	Dividend payout
1	S\$52,487
2	S\$54,702
3	S\$57,010
4	S\$59,416
5	S\$61,924
6	S\$64,537
7	S\$67,260
8	S\$70,099
9	S\$73,057
10	S\$76,140

The actual dividend payout is subject to the distribution rate and frequency of the chosen ILP sub-funds, assuming no fees and charges are applicable to the policy during the payout period.

- ¹¹ The account value at policy year 45 is illustrated under the assumption that the selected funds perform at 8% investment return. At 4% illustrated investment return, the account value is S\$691,453 at policy year 45.
- ¹² The account value at policy year 20 is illustrated under the assumption that the selected funds perform at 8% investment return, assuming no withdrawals, reduction in premium, or premium holidays have been made. At 4% illustrated investment return, the account value is S\$286,972 at policy year 20, assuming no withdrawals, reduction in premium, or premium holidays have been made.
- ¹³ IUA refers to the account to which start-up bonuses and regular premiums during the ICP period are allocated.
- ¹⁴ AUA refers to the account to which the power-up bonuses, loyalty bonuses, top-up premiums, recurring single premiums, and regular premiums after ICP period are allocated.

This is not a contract of insurance and is not intended as an offer or recommendation to buy the product. A copy of the product summary may be obtained from our authorised product distributors. You should read the product summary, product highlights sheet(s) and fund summary before deciding whether to purchase the product and subscribe for units in the ILP sub-fund(s). You may wish to seek advice from a Financial Planner before making a commitment to purchase the product. In the event that you choose not to seek advice from a Financial Planner, you should consider whether the product in question is suitable for you. Please refer to the policy general provisions for the exact terms and conditions, specific details and exclusion of this product. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. It is detrimental to replace an existing life insurance policy with a new one as the new policy may cost more or have fewer benefits at the same cost.

This policy is protected under the Policy Owners Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC).
